HAVWARD & JENKINSON, UNDERTAKERS:

LANGUEY STREET, NOTICE

DURING BLY "PERPORARKY PABRENCE from the Colony, by Helmaken and Dr Carrall will assume my professional engagements.

Dr Carrall, who occupies my residence, holds my Tower of Altories, March 11. W. POWELL, Victoria, March 11.

eoneeniresed is

The Dominion Finances: In our telegraphic columns will be found a truly gloomy, picture of the financial condition of the Dominion of Canada, by an Ottawa correspondent of a New York paper. It has beca the custom of the Ottawa correspondents of the New York press once a year to palm off upon the American people the most groundless and distorted statements about the affairs of the Dominion. The present is, therefore, the regular anniversary dish-spiced with malicious falsehood to suit the palate of a certain class of the American people. It, however, differs somewhat from former dishes of the kind in respect to the supreme indifference exhibited in dealing with universally known historical facts-the more than wonted absence of 'historical conseience.' Sir Francis Hincks was never Minister of Finance before, nor has the revenue of the Dominion been falling behind. We do not see what such data as those given can have to do with the question at all. The debts of the various Provinces forming the Dominion, which appears to be Brother Jonathan's nightmare, were consolidated upon Union. Since that time the Province of Quebec has acquired a very considerable surplus revenue, and the accumulated surplus revenue of the Province of Ontario has mounted materially above three million dollars, while, as was stated in these columns from undoubted authority,a few days ago, the present Finance Minister showed a large surplus revenue for the Dominion last year, and this year he has been enabled to come before Parliament with that surplus augmented to upwards of four million dollars. Indeed, so successful has the present Finance Minis ter been that even the Toronto Globe has ceased to "sling ink and italics" at him. Taking the Dominion as whole, with its consolidated debt and all, it is, as we took occasion to show a short time ago, one of the most prosperous, if not the most prosperous country in the world. Talk about the Dominion being on the verge of Bankruptoy ! Least of all do such assertions become American writers. What is the fact? The entire debt of the Dominion only represents an an-nual per capita interest of ninety-eight That of the the United States three dollars and seventy-five cents. If Canada is in such a deplorable financial condition, what shall be said of the United States? Seriously, it would be more becoming of the Ottawa correspondents of the New York press to evince some slight regard for truth, when animadvert ing upon the affairs of the Dominion. When American writers allude to the unprosperous condition of the Dominion we must think that "the wish is father to the thought." Yet one would imagine that a a great and powerful country

could afford to be somewhat more generous in dealing with what it is pleased to regard as a weak neighbor. Exemption from Port Charges. Amongst the resolutions to be moved in the Legislature to-day is one asking that the steamer Isabel may be exempted from Port Charges in consideration of carrying our mails free. The unfairness-we may say, the positive meanness - of expecting a foreign company to carry our mails twice a week between this port and Puget Sound without any remuneration whatever, and at the same time exacting full Port Dues every time the steamer so gratuitously serving the Colony arrives in our harbour, has been more than once pointed out in this journal. We are glad, therefore, to observe that the matter is about to be brought under the notice of the Legislature in a form which will compel an expression of opinion. Although one could have wished to see the question intrusted to abler hands, still it is hardly conceivable that the Council will refuse to grant such a slight recognition of such important services extending over a long period of time. Capt Starr is not given been authorised to speak in his name; but it need surprise no one if a refusal on the part of the Government to con-cede so very trifling a point should re-sult in the immediate discontinuance of bi-weekly trips, or, at all events, in a cessation of the bi-weekly mail service now enjoyed. The Colony has long been paying twelve thousand dollars a year for a monthly mail service from San Francisco, and yet it refuses to pay anything, even to remit the harbor area to remark a shi-weekly mail service. dues, toward s a bi-weekly mail service with Paget Sound. Such conduct is inconsistent, to say the very least, The New System.

An anonymous writer, in another paper, appropriating a very protentious nom de plume, has performed what he is pleased to consider the ceremony of unveiling the Government policy. One wonders that so much wisdom should be concentrated in one little brain. That

the Lieutenant Governor will not be compelled to appoint his ministry from the members of the Assembly we presume few will be inclined to question. In all probability the Lieutenant Governor will appoint his first ministry before the Assembly will have an existence; so that it would be impossible to appoint that ministry from the Assembly That members of the ministry will have to secure seats in the Assembly, as soon as that body is constituted, need not be doubted. As to the Lieutenant Governor being able to control the revenues without reference to the Assembly, any attempt to do that would be unconstitutional, and few Governor's would care to face the inevitable consequences of such as an act. Fow Governors choose to give trouble now-a-days; and fewer still, would care to do so in administering the affairs of a Province of the Dominion Queen Victoria could give trouble; so could President Grant, the Governor General of the Dominicn, or, in fact, any other soverign or Governor; but, somehow it is seldom that a role cares to place himself outside the constitution. The working of the system of Responsible Government in British North America is now so well understood that we imagine the people do not stand very much in need of any warning from the "Colonial League."

Police Court.

BEFORE MR. JUSTICE O'RIELLY.

Monday, March 20th, 1871.

FIGHTING.—Johnny, Timothy, and Peter, Hydah Indians, appeared before this Court yesterday on separate charges of fighting in the public streets. The parties were seriously cautioned by the Magestrate and dismissed from custody.

MUNICIPAL RATES.—Seven cases of delinguency to Road and School taxes were adjusted.

quency for Road and School taxes were adju-dicated, and the several sums due ordered to

PUGET SOUND ITEMS. - We call the following from the Seattle Intelligencer :- As the ship Atlanta came away from San Frac-oisco, John Alden, ship carpenter, was miss-ing. After being several days out at sea his remains were discovered in the hold of the ship. It is supposed that he fell through the after hatch and was instantly killed.... The University Exhibition on Thur-day last was pretty well attended, but somehow the

steamer Olympia encountered a gale of great meverity and a very heavy sea... The Intel-ligencer in a very able article, advocates in-creased mail service for the Sound.

CANADIAN BUDGET .- On the 11th inst the Minister of Finance for the Dominion introduced the budget in the House, stating that Canada now stood eighth, instead of eleventh Canada now stood eighth, instead of eleventh as last year, on the list of countries trading with England, taking in proportion to population more goods from England than any other country in the world, and three times as much as America. Notwithstanding this prospect, he warnedmembers not to expect a large reduction of tayation. He conseids them duction of taxation. He counseled them to duction of taxation. He counseled them to take off the five per cent. duties imposed at the last session, but the duties on coal must remain. He said he was not certain that ne-gotiations were going on in Washington re-specting the tariff, but it was considered pos-sible, therefore the Government desired to retain the duties on coal and flour.

REAL ESTATE SALE .- Mr Franklin has ostponed his sale of real estate, advertised | PACK TRAIN.—Smith & Sterling will send for to-day, until to-morrow. Most of the property is desirably situated and offers indecement to parties seeking investment. With Confederation and new gold diggings and boat loads of immigrants by every conveyance from Puget Sound, there exists no reason why city real estate should not rapidly advance in value.

DIAMOND FINDING BY YOUNG LADIES .- A Uape paper says :- Mr Townshend had a slice of luck last week. His little girl was out at play at Paiel, when she picked up a 5-carat diamond, which was purchased by Masker for £49. We also hear that President Parker's daughters, while taking a stroll picked up a diamond a-piece.

FROM PUGBT SOUND .- The steamer Olympia Cant Finch, with 107 passengers and a good freight, arrived at 5 o'clock yesterday afternoon from Paget Sound, and will sail at 10:30

o'clock this A. M. FRUIT CROP .- Pomologists in this section gay there never was a season when the Is-

land fruit crop promised to be so heavy and that, should no late frost nip the fruit in the bud, very little will require to be imported. WILL NOT Go .- The requisite number of

passengers not having offered, the steamer Grappler will not go to Skeenamouth. FOR OMINECA .- About 50 of the passengers who crossed in the Olympia yesterday after-noon are bound for the new gold fields.

FUNERAL OF THE LATE MR. PRARKES-The funeral obsequies of the late George Pearkes took place yesterday. The body lay in state at Masonic Hall until 2 o'clock in the alternoon and was visited by many friends of the departed gentleman among whom was Sir James Douglas, first Governor of the Sir James Douglas, first Governor of the colony, under whom deceased was Crown Solicitor. At half-past 2 o'clock the procession moved from the Hall. The pall bearers were: His Worship Mayor Robertson, T C Nuttall Esq., High Sheriff Eliott, i obert Beaven, Esq., J C Nicholson, Esq., Edwin Johnson, Esq., J F McCreight, Esq., Lumley Franklin, Esq., The obsequies were under the direction of the District Grand Lodge of Masons, E R, of which the deceased was an officer. SINGULAR COINCIDENCE .- On Saturday he 11th inst our local contemporary suggested the necessity for a Civil List. At that time it had been commonly reported round town that the Executive had prepared cound town that the Executive had prepared such a List. At the very next meeting of the Council the Bill establishing a Civil List was sent down. Our contemporary calls this a singular coincederce and asks its readers to believe that the Bill was tramed and sent down on its suggestion, although no Executive had met during the three intervening days. This piece of childish impudence suggests the fitness of one of Esop's admirable fables:—'A gnat that had been buzzing about the head of a Bull, at length settling himself down upon his born, length settling himself down upon his born, begged his pardon for incommoding him; but it, says he, my weight at all inconveniences you, pray say so and I will be off in a movement.'
